5.0 Services offered

The Portfolio Manager offers to its clients the following two types of services:

1. Details of services being offered by the Portfolio Manager

• Discretionary services

Under these services, the choice as well as the timings of the investment decisions rest solely with the Portfolio Manager. The Portfolio Manager may at times and at its own discretion, consider the views of the Client pertaining to the investment / disinvestment

decisions of the Portfolio. The Portfolio Manager shall have the sole and absolute discretion to invest in respect of the Client's account in any type of security as per the PMS Agreement and make such changes in the investments and invest some or all of the Client's account in such manner and in such markets as it deems fit, subject to the investment objectives and other restrictions laid down in the client-member agreement and / or in this Disclosure Document. The Client may give informal guidance to customize in relation to the Portfolio, however, the final decision rests with the Portfolio Manager. The securities invested / disinvested by the Portfolio Manager for Clients may differ from one Client to another Client even if they have the similar investment objectives and invested in similar strategies. The portfolio of each Client shall be managed individually and independently in accordance with the needs of each Client, however, the portfolio of the Client with similar needs and investing in similar strategies may look identical.

The Portfolio Managers' decision (taken in good faith) in deployment of the Clients' account is absolute and final and cannot be called in question or be open to review at any time during the currency of the PMS Agreement or any time thereafter except on the ground of malafide, fraud, conflict of interest or gross negligence. This right of the Portfolio Manager shall be exercised strictly in accordance with the relevant laws, including any Acts, Rules, and Regulations, guidelines and notifications in force from time to time.

Under these services, the Clients may authorize the Portfolio Manager to invest their Funds in specific financial instruments or a mix of specific financial instruments or restrict the Portfolio Manager from investing in specific

financial instruments or securities, however, within the given framework the Portfolio Manager shall have absolute discretion in taking investment decisions for the Client. Periodical statements in respect of Client's Portfolio shall be sent to the respective Clients in accordance with the Regulations.

Investment Strategies under Discretionary Services

• **Investment Advisory Services**

The Portfolio Manager may provide Portfolio Advisory Services, in terms of the Regulations, which shall be in the nature of investment advisory and shall include the responsibility of advising on the portfolio strategy and investment and divestment of individual securities on the client's portfolio, for an agreed fee structure, however the administration of the portfolio shall not be done by the Portfolio Manager.

(I) **Dynamic Asset Allocation Portfolio – Direct:**

Objective: The investment objective is to provide long-term capital appreciation with relatively lower volatility through a dynamically balanced portfolio of equity and debt oriented mutual fund schemes.

The proposed investment strategy is summarized below:

- i. Optimise Returns through proper Asset Allocation of Equity and Debt asset classes from time to time
- ii. Selecting consistently better performing mutual fund schemes

Investment Discipline (investment discretion guidelines)

Equity Investment

The Portfolio Manager will seek to follow the following investment discipline under normal circumstances:

- a) Investments in any single mutual fund

scheme shall generally not be greater than 45% of the portfolio.

- b) Single AMC exposure will generally be restricted to 70% of the portfolio

It will be the endeavour of the Portfolio Manager to follow the norms listed above. However the Portfolio Manager retains the right to deviate from these norms from time to time at its sole discretion.

Debt Investment

Portfolio Manager seeks to invest in Debt instruments including Equity Oriented Arbitrage Schemes, Debt ETFs, Bonds, Debentures and Debt Oriented Mutual Fund schemes. Equity Arbitrage Funds are considered as a debt asset on account of their characteristics of low volatility with commensurate returns and their composition.

The portfolio manager would endeavour to maintain a consistent performance in the portfolio by maintaining appropriate allocation between equity and debt instruments time to time to reduce volatility and use opportunities to deliver better returns.

It will be the endeavour of the portfolio manager to follow the norms listed above. However, the portfolio Manager retains the right to deviate from these normal norms from time to time as its sole discretion.

Clients are not being offered any guaranteed or assured returns.

(II) **Dynamic Stock Allocation Portfolio:**

Objective: The investment objective is to provide long term capital appreciation with lower volatility through dynamically managed portfolio of equity and debt securities.

Equity Investment:

The Portfolio manager seeks to invest in Largecap and Midcap stocks. Portfolio Manager may invest in various Equity oriented

Exchange Traded Funds (ETFs).

Debt Investment:

Portfolio Manager seeks to invest in Debt instruments including Equity Oriented Arbitrage Schemes, Debt ETFs, Bonds, Debentures and Debt Oriented Mutual Fund schemes. Equity Arbitrage Funds are considered as a debt asset on account of their characteristics of low volatility with commensurate returns and their composition.

The portfolio manager would endeavour to maintain a consistent performance in the portfolio by maintaining appropriate allocation between equity and debt instruments time to time to reduce volatility and use opportunities to deliver better returns.

It will be the endeavour of the portfolio manager to follow the norms listed above. However, the portfolio Manager retains the right to deviate from these normal norms from time to time as its sole discretion.

Clients are not being offered any guaranteed or assured return.

(III) Dynamic ETF Allocation Portfolio:

Objective: The investment objective is to provide long-term capital appreciation with relatively lower volatility through a dynamically balanced portfolio of equity and debt securities.

The proposed investment strategy is summarized below:

- i. Optimise Returns through proper Asset Allocation of Equity and Debt asset classes from time to time
- ii. Selecting consistently better performing exchange traded funds (ETFs) and mutual fund schemes

Investment guidelines

Equity Investment

The Portfolio Manager will seek to invest in various exchange-traded funds (ETFs).

Debt Investment

Portfolio Manager seeks to invest in Debt instruments including Equity Oriented Arbitrage Schemes, Debt ETFs, Bonds, Debentures and Debt Oriented Mutual Fund schemes. Equity Arbitrage Funds are considered as a debt asset on account of their characteristics of low volatility with commensurate returns and their composition.

The portfolio manager would endeavour to maintain a consistent performance in the portfolio by maintaining appropriate allocation between equity and debt instruments time to time to reduce volatility and use opportunities to deliver better returns.

It will be the endeavour of the portfolio manager to follow the norms listed above. However, the portfolio Manager retains the right to deviate from these normal norms from time to time as its sole discretion.

Clients are not being offered any guaranteed or assured returns.

(IV) Freedom Portfolio – Direct:

Objective: The main objective of the portfolio strategy is to generate capital appreciation in the medium term to long term through investments in equity oriented mutual fund schemes.

The proposed investment strategy is summarized below:

The portfolio will be invested primarily in equity and equity related instruments in a portfolio comprising of 'Core' portfolio and 'Satellite' portfolio.

- i. Core portfolio shall include diversified equity schemes
- ii. Satellite portfolio shall include sector or theme based mutual fund schemes.

Investment Discipline (investment discretion guidelines)

The Portfolio Manager will seek to follow the following investment discipline under normal circumstances:

- a) Investments in Core portfolio shall be in a range of 0% - 100%
- b) Investment in Satellite portfolio shall be in a range of 0% - 40%
- c) Investments in any mutual fund scheme shall generally not be greater than 45% of the portfolio
- d) Single AMC exposure will generally be restricted to 70% of the portfolio
- e) The balance idle cash will be invested either in debt, debt oriented mutual funds, short term instruments or Equity Oriented Arbitrage Funds. Investment in such securities can be between 0% - 100% of the portfolio.

It will be the endeavour of the Portfolio Manager to follow the norms listed above. However the Portfolio Manager retains the right to deviate from these norms from time to time at its sole discretion.

Clients are not being offered any guaranteed or assured returns.

(V) Freedom ETF Portfolio:

Objective: The main objective of the portfolio strategy is to generate capital appreciation in the medium term to long term through investments in equity oriented exchange traded funds (ETFs).

The proposed investment strategy is to select better performing ETFs from various ETFs launched by mutual funds.

Investment guidelines

The Portfolio Manager will seek to invest in various exchange-traded funds (ETFs).

It will be the endeavour of the Portfolio Manager to follow the norms. However the Portfolio Manager retains the right to deviate from these

norms from time to time at its sole discretion.

Clients are not being offered any guaranteed or assured returns.

(VI) Bluechip Portfolio:

Objective: The Portfolio objective is to generate capital appreciation in medium to long term by investing in well-established companies.

Features:

- Rule based investment approach;
- Investment Horizon: Medium to Long term;
- Investment Approach: "Buy & Hold" Portfolio.
- Focus on companies which provide steady and consistent growth;
- Concentrated portfolio

It will be the endeavour of the Portfolio Manager to follow the norms listed above. However, the Portfolio Manager retains the right to deviate from these normal norms from time to time at its sole discretion.

Clients are not being offered any guaranteed or assured returns.

(VII) Dynamic Asset Allocation Portfolio:

Objective: The investment objective is to provide long-term capital appreciation with relatively lower volatility through a dynamically balanced portfolio of equity and debt oriented mutual fund schemes.

The proposed investment strategy is summarized below:

- i. Optimise Returns through proper Asset Allocation of Equity and Debt asset classes from time to time
- ii. Selecting consistently better performing mutual fund schemes

Investment Discipline (investment discretion guidelines)

Equity Investment

The Portfolio Manager will seek to follow the following investment discipline under normal

circumstances:

- a) Investments in any single mutual fund scheme shall generally not be greater than 45% of the portfolio.
- b) Single AMC exposure will generally be restricted to 70% of the portfolio

It will be the endeavour of the Portfolio Manager to follow the norms listed above. However the Portfolio Manager retains the right to deviate from these norms from time to time at its sole discretion.

Debt Investment

Investment decisions made by the Portfolio Manager on behalf of its Clients would be based on:

- Credit Quality of the portfolio of debt oriented mutual fund schemes
- Liquidity and exit charges of debt instruments and debt oriented mutual fund schemes
- View on interest rate
- Any other view taken by the Portfolio Manager from time to time
- Equity Arbitrage Funds are considered as a debt asset on account of their characteristics of low volatility low return and their structure.

The Portfolio Manager would endeavor to maintain a consistent performance in the Portfolio by maintaining a balance between safety, liquidity and profitability aspects of the Portfolio. He would also endeavor to develop a well diversified quality Portfolio in order to minimize the credit and liquidity risk. The duration of the debt portfolio would primarily be managed with a view to generate accrual income with minimum interest rate risk. The Portfolio Manager would endeavor to mitigate the risk associated with debt securities. The Portfolio Manager can invest in debt oriented mutual fund schemes also.

Clients are not being offered any guaranteed

or assured returns.

(VIII) Freedom Portfolio:

Objective: The main objective of the portfolio strategy is to generate capital appreciation in the medium term to long term through investments in equity oriented mutual fund schemes.

The proposed investment strategy is summarized below:

The portfolio will be invested primarily in equity and equity related instruments in a portfolio comprising of 'Core' portfolio and 'Satellite' portfolio.

- i. Core portfolio shall include diversified equity schemes
- ii. Satellite portfolio shall include sector or theme based mutual fund schemes.

Investment Discipline (investment discretion guidelines)

The Portfolio Manager will seek to follow the following investment discipline under normal circumstances:

- a) Investments in Core portfolio shall be in a range of 0% - 100%
- b) Investment in Satellite portfolio shall be in a range of 0% - 40%
- c) Investments in any mutual fund scheme shall generally not be greater than 45% of the portfolio
- d) Single AMC exposure will generally be restricted to 70% of the portfolio
- e) The balance idle cash will be invested either in debt, debt oriented mutual funds, short term instruments or Equity Oriented Arbitrage Funds. Investment in such securities can be between 0% - 100% of the portfolio.

It will be the endeavour of the Portfolio Manager to follow the norms listed above. However the Portfolio Manager retains the right to deviate

from these norms from time to time at its sole discretion.

Clients are not being offered any guaranteed or assured returns.

(IX) Large Cap Portfolio:

Objective: The Portfolio aims to deliver medium to long term capital appreciation by investing in well-established, large size listed companies.

Portfolio Advisor:

We may have one or more Portfolio Advisors for the portfolio. The Portfolio Advisor /s shall create a portfolio of securities based on the norms and investment objective and definitions given by the Portfolio Manager.

Features:

- Investment Horizon: Medium to Long term
- Investment Approach: "Buy & Hold" Portfolio; Low portfolio churn
- Focus on Sectors and Companies which provide steady and consistent growth
- Concentration on blue-chip, large cap stocks
- Choice of successful portfolio advisors available for the above investment objective

The Portfolio Manager shall (based on the suggested portfolio of securities given by the Portfolio Advisor/s for the above investment objective) create a suitable portfolio for the Client. The Client shall also be given a choice of Portfolio Advisor/s and based on the selection of the Portfolio Advisor by the Client (one or more), the Portfolio Manager shall create the most suitable portfolio for the Client. In case the client does not select the Portfolio Advisor the Portfolio Manager shall create a suitable portfolio for the Client based on internal research.

It will be the endeavour of the Portfolio Manager to follow the norms listed above. However, the Portfolio Manager retains the right to deviate from these normal norms from time to time at its

sole discretion.

Clients are not being offered any guaranteed or assured returns.

(X) MidCap Portfolio:

Objective: The Portfolio aims to deliver superior returns by investing in focused themes primarily in the mid and small cap space. It aims to predominantly invest in Small & Mid Cap stocks with a focus on identifying Emerging Stocks/Sectors.

Portfolio Advisor:

We may have one or more Portfolio Advisors for the portfolio. The Portfolio Advisor /s shall create a portfolio of securities based on the norms and investment objective and definitions given by the Portfolio Manager.

Features:

- Investment Horizon: Medium to Long term
- Investment Approach: "Buy & Hold" Portfolio; Low to medium portfolio churn
- Focus on Sectors and Companies with potential to deliver higher growth rates than the well established, large size companies.
- Concentration on emerging themes and identifying companies at the early stage of the business cycle
- Choice of successful portfolio advisors available for the above investment objective

The Portfolio Manager shall (based on the suggested portfolio of securities given by the Portfolio Advisor/s for the above investment objective) create a suitable portfolio for the Client. The Client shall also be given a choice of Portfolio Advisor /s and based on the selection of the Portfolio Advisor by the Client (one or more), the Portfolio Manager shall create the most suitable portfolio for the Client. In case the client does not select the Portfolio Advisor the Portfolio Manager shall create a suitable portfolio for the Client based on internal

research.

It will be the endeavour of the Portfolio Manager to follow the norms listed above. However, the Portfolio Manager retains the right to deviate from these normal norms from time to time at its sole discretion.

Clients are not being offered any guaranteed or assured returns.

(XI) MultiCap Portfolio:

Objective: The Portfolio aims to deliver medium to long term capital appreciation by focusing on well-managed companies across the entire market capitalization range.

Portfolio Advisor:

We offer Alpha 50 Index portfolio launched by India Index Services & Products Limited, Mumbai. We qualitatively analyse stocks part of IISL Alpha 50 Index and take 20-30 stocks in the portfolio.

We may have one or more Portfolio Advisors for the portfolio. The Portfolio Advisor /s shall create a portfolio of securities based on the norms and investment objective and definitions given by the Portfolio Manager.

Features:

- Investment Horizon: Medium to Long term
- Investment Approach: Flexible allocation to any particular market cap category; Medium portfolio churn
- Focus on Sectors and Companies which provide growth across the entire market capitalization range.
- Concentration on stocks of companies across large, mid and small cap space depending on the relative value and risk/return profile of the market cap range.
- The Portfolio Advisor /s shall create a Portfolio of Securities based on the norms and investment objective and definitions given by the Portfolio Manager.

The Portfolio Manager shall (based on the suggested portfolio of securities given by the Portfolio Advisor/s for the above investment objective) create a suitable portfolio for the Client. The Client shall also be given a choice of Portfolio Advisor /s and based on the selection of the Portfolio Advisor by the Client (one or more), the Portfolio Manager shall create the most suitable portfolio for the Client. In case the client does not select the Portfolio Advisor the Portfolio Manager shall create a suitable portfolio for the Client based on internal research.

It will be the endeavour of the Portfolio Manager to follow the norms listed above. However, the Portfolio Manager retains the right to deviate from these normal norms from time to time at its sole discretion.

Clients are not being offered any guaranteed or assured returns.

2. Policy for investments in and availing services of group / associate companies:

The Portfolio Manager may utilize the services of the sponsor, group companies and / or any other subsidiary or associate company of the NJ group of companies, established or to be established at a later date, in case such a company is in a position to provide requisite services to the Portfolio Manager. Portfolio Manager has hired services of its holding company NJ India Invest Private Limited, SEBI Registered Stock Broker and DP to get opened its clients' trading and demat accounts. The Portfolio Manager will conduct its business with the aforesaid companies (including their employees or relatives) on arms length basis and at mutually agreed terms and conditions and under all applicable laws after evaluation of the competitiveness of the pricing offered and the services to be provided by them. While entering into such transactions, in accordance with obligations under the Regulations, the

Client's interests shall always remain paramount. In case of transactions that may be entered into with related parties, the decision on such transactions shall be solely at the discretion of the advisory board appointed by the Portfolio Manager.

The Portfolio Manager shall not invest any part of the Portfolio in Securities of its associates / group companies.

6.0 Risk Factors

- (i) Securities investments are subject to market and other risks and the Portfolio Manager provides no guarantee or assurance that the objectives set out in the Disclosure Document and/or the PMS Agreement shall be accomplished.
- (ii) The value of the Portfolio may increase or decrease depending upon various market forces and factors affecting the capital markets such as de-listing of Securities, market closure, relatively small number of scrips accounting for large proportion of trading volume. Consequently, the Portfolio Manager provides no assurance of any guaranteed returns on the Portfolio.
- (iii) Past performances of the Portfolio Manager do not guarantee its future performance.
- (iv) The Client stands a risk of loss due to lack of adequate external systems for transferring, pricing, accounting and safekeeping or record keeping of Securities. Transfer risk may arise due to the process involved in registering the shares, physical and demat, in the Portfolio Manager's name, while price risk may arise on account of availability of share price from stock exchanges during the day and at the close of the day.
- (v) Investment decisions made by the Portfolio Manager may not always be profitable.
- (vi) The Portfolio Manager has reasonably limited

experience or track record.

- (vii) Investments made by the Portfolio Manager are subject to risks arising from the investment objective, investment strategy and asset allocation.
- (viii) Not meeting the obligation to make Capital Contributions in terms of the Agreement may have implications as set out in the PMS Agreement and may also impact the profitability of the Portfolio.
- (ix) Equity and Equity Related Risks: Equity instruments carry both company specific and market risks and hence no assurance of returns can be made for these investments. While the Portfolio Manager shall take all reasonable steps to invest the Funds in a prudent manner in such instruments, such decisions may not always prove to be profitable or correct. Consequently, the Client shall assume any loss arising from such decisions made by the Portfolio Manager.
- (x) Macro-Economic risks: Overall economic slowdown, unanticipated corporate performance, environmental or political problems, changes to monetary or fiscal policies, changes in government policies and regulations with regard to industry and exports may have direct or indirect impact on the investments, and consequently the growth of the Portfolio.
- (xi) Liquidity Risk: Liquidity of investments in equity and equity related securities are often restricted by factors such as trading volumes, settlement periods and transfer procedures. If a particular security does not have a market at the time of sale, then the Portfolio may have to bear an impact depending on its exposure to that particular security. While Securities that are listed on a stock exchange generally carry a lower liquidity risk, the ability to sell these investments is limited by overall trading volume on the stock exchange. Money market securities, while fairly

- liquid, lack a well developed secondary market, which may restrict the selling ability of such securities thereby resulting in a loss to the Portfolio until such securities are finally sold.
- (xii) This risk is higher under the Services if the Portfolio Manager proposes to invest a large portion of the Portfolio in unlisted securities. Even upon termination of the Agreement, the Client may receive illiquid securities and finding a buyer for such Securities may be difficult. Further, different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the portfolio are un-invested and no return is earned thereon. The inability of the Portfolio Manager to make intended Securities purchases, due to settlement problems, could cause the Portfolio to miss certain investment opportunities.
- (xiii) Credit Risk: Debt securities are subject to the risk of the issuer's inability to meet the principal and interest payments on the obligations and may also be subject to the price volatility due to such factors as interest sensitivity, market perception, or the credit worthiness of the issuer and general market risk.
- (xiv) Interest Rate Risk: is associated with movements in interest rates, which depend on various factors such as government borrowing, inflation, economic performance etc. The value of investments in fixed income Securities will appreciate/depreciate if the interest rates fall/rise. Fixed income investments are subject to the risk of interest rate fluctuations, which may accordingly increase or decrease the rate of return thereon. When interest rates decline, the value of a portfolio of fixed income securities can be expected to rise. Conversely, when interest rate rise, the value of a portfolio of fixed income securities can be expected to decline.
- (xv) Acts of State, or sovereign action, acts of nature, acts of war, civil disturbance are extraneous factors which can impact the Portfolio.
- (xvi) The Client stands the risk of total loss of value of an asset which forms part of the Portfolio or its recovery only through an expensive legal process due to various factors which by way of illustration include default or non performance of a third party, investee company's refusal to register a Security due to legal stay or otherwise, disputes raised by third parties.
- (xvii) Reinvestment Risk: This risk arises from the uncertainty in the rate at which cash flows from an investment may be reinvested. This is because the bond will pay coupons, which will have to be reinvested. The rate at which the coupons will be reinvested will depend upon prevailing market rates at the time the coupons are received.
- (xviii) Non-Diversification Risk: This risk arises when the Portfolio is not sufficiently diversified by investing in a wide variety of instruments.
- (xix) As mentioned above, the Portfolio Manager will attempt to maintain a diversified Portfolio in order to minimize this risk.
- (xx) Mutual Fund Risk: This risk arises from investing in units of Mutual funds. Risk factors inherent to equities and debt securities are also applicable to investments in mutual fund units. Further, scheme specific risk factors of each such underlying scheme, including performance of their underlying stocks, derivatives instruments, stock lending, off-shore investments etc., will be applicable in the case of investments in mutual fund units. In addition, events like change in fund manager of the scheme, take over, mergers and other changes in status and constitution of mutual funds, foreclosure of schemes or plans, change in government policies could affect performance of the investment in mutual fund units.
- (xxi) Prospective clients should review / study the Disclosure Document carefully and in its entirety and shall not construe the contents hereof or

regard the summaries contained herein as advice relating to legal, taxation, or financial / investment matters and are advised to consult their own professional advisor(s) as to the legal, tax, financial or any other requirements or restrictions relating to the subscription, gifting, acquisition, holding, disposal (sale or conversion into money) of Portfolio and to the treatment of income (if any), capitalisation, capital gains, any distribution, and other tax consequences relevant to their Portfolio, acquisition, holding, capitalization, disposal (sale, transfer or conversion into money) of Portfolio within their jurisdiction of nationality, residence, incorporation, domicile etc. or under the laws of any jurisdiction to which they or any managed funds to be used to purchase/gift portfolio of securities are subject, and also to determine possible legal, tax, financial or other consequences of subscribing / gifting, purchasing or holding portfolio of securities before making an investment.

- (xxii) The Portfolio Manager is neither responsible nor liable for any losses resulting from the Services.
- (xxiii) Clients are not being offered any guarantee / assured returns.
- (xxiv) The Clients may not be able to avail of securities transaction tax credit benefit and/or tax deduction at source (TDS) credit and this may result in an increased incidence of tax on the Clients. The Client may incur a higher rate of TDS/ Dividend Distribution Tax in case the investments

are aggregated.

- (xxv) The arrangement of pooling of funds from various Clients and investing them in Securities could be construed as an 'Association of Persons' (AOP) in India under the provisions of the Income-tax Act, 1961 and taxed accordingly.
- (xxvi) In case of investments in Mutual Fund units, the Client shall bear the recurring expenses of the Portfolio Management Services in addition to the expenses of the underlying mutual fund schemes. Hence, the Client may receive lower pre-tax returns compared to what he may receive had he invested directly in the underlying mutual fund schemes in the same proportions.
- (xxvii) After accepting the corpus for management, the Portfolio Manager may not get an opportunity to deploy the same or there may be delay in deployment. In such situation the Clients may suffer opportunity loss.
- (xxviii) Clients will not be permitted to withdraw the funds/Portfolio (unless in accordance with the terms agreed with the Client). In addition, they are not allowed to transfer any of the interests, rights or obligations with regard to the Portfolio except as may be provided in the PMS Agreement and in the Regulations.
- (xxix) The Client has perused and understood the disclosures made by the Portfolio Manager in the Disclosure Document.
- (xxx) Changes in Applicable Law may impact the performance of the Portfolio.

7.0 Client Representation - Categories of the Clients serviced

Category of Clients	No. of Client	Funds Managed (₹)	No. of Client	Funds Managed (₹)	No. of Client	Funds Managed (₹)	Discretionary/Non Discretionary, if any
	As on 31st Dec 2018		As on 31st Jan 2018		As on 31st Oct 2017

8.0 Related Parties Disclosure as per AS-18

Disclosure of relationship and transaction with the related parties as defined in Accounting Standards 18 issued by The Institute of Chartered Accountants of India is as under:

A. Name of the related parties and description of relationship

- i. Key Management Personnel:
 - Niraj R. Choksi
 - Misbah Yousuf Baxamusa
- ii. Related Parties:
 - NJ India Invest Private Limited (Holding Company)
 - NJ Capital Private Limited
 - NJ Realty Services Private Limited
 - NJ Insurance Brokers Private Limited
 - Finlogic Technologies India Private Limited
 - NJ India Realty Opportunities LLP
 - Valuable Eventures LLP
 - NJ Charitable Trust
 - NJ Wellness Private Limited
 - NJ Global Finance (IFSC) Private Limited
 - Arundhati Desai
- iii. Promoters:
 - Jignesh Desai

B. Details of Transactions for FY 2017-18

Particulars of Transaction	Related parties where control exists	Key Management Personnel	Relatives
NJ India Invest Private Limited. (Holding Company)			
Exit Load Expense	5,97,035	0	0
Management Fees Expense (referral fees)	3,61,50,784	0	0
Upfront PMS Expense	27,11,632	0	0
Infrastructure Support Charges	2,59,200	0	0
Management Fees Income	21,37,533	0	0
Demat Charges*	0	0	0
Finlogic Technologies India Private Limited (Sister Concern)			
Management Fees income	88,910	0	0
Jignesh Desai (Promoter)			
Management Fees income	0	55,340	0
Arundhati Desai (Relative of Promoter)			
Management Fees income	0	0	57,302
Niraj Choksi (Managing Director)			
Management Fees income	0	1,468	0
Misbah Baxamusa (Director)			
Management Fees income	0	4,034	0

* The Holding Company does not deduct/levy Demat charges.

The Company has paid Rs.3,94,59,451/- (Inclusive of GST/Service Tax) as brokerage to its Holding Company.

9.0 Performance of the Portfolio Manager

Financial performance of the Portfolio Manager/Audited financial statements of the Portfolio Manager for the preceding 3 financial years are as follows:

Balance Sheet	As at 31st March, 2018(₹)	As on 31st March, 2017(₹)	As on 31st March, 2016 (₹)
A. EQUITY AND LIABILITIES:

11.0 Nature of costs and expenses for clients

The following are indicative types of fees, costs and expenses for clients availing the portfolio management services through the Portfolio Manager. The exact basis of charge relating to each of the following services shall be annexed to the Portfolio Management agreement to be entered into, between the Portfolio Manager and the Client, and the agreements of each of the services availed at the time of execution of such agreements. 12.0 Custody of securities

1. The Portfolio Manager has appointed Orbis Financial Corporation Limited as a Custodian vide duly executed Custodial Services

Agreement dated August 02, 2017. The custody of all the securities of the client shall be with the Custodian henceforth.

2. The custodian shall act on the instruction of the Portfolio Manager.
3. All such custodian fees, charged by the custodian, shall be payable by the client.

The Portfolio Manager shall not be liable for any act of the custodian done with or without the instruction of the Portfolio Manager, which may cause or is likely to cause any loss or damage to the client.

13.0 Taxation

It may be noted that the information given hereinafter is only for general information purposes and is based on the advice received by the Portfolio Manager regarding the law and practice currently in force in India and the Investors should be aware that the relevant fiscal rules or their interpretation may change or it may not be acceptable to the tax authorities. As is the case with any interpretation of any law, there can be no assurance that the tax position or the proposed tax position prevailing at the time of an investment will be accepted by the tax authorities or will continue to be accepted by them indefinitely.

Further statements with regard to tax benefits mentioned herein below are mere expressions of opinion and are not representations of the Portfolio Manager to induce any investor to invest whether directly from the Portfolio Manager or indirectly from any other persons by the secondary market operations. In view of the above, and since the individual nature of tax consequences may differ in each case on its merits and facts, each Investor is advised to

consult his / her or its own professional tax advisor with respect to the specific tax implications arising out of its participation in the Portfolio Management Services, as an investor. In view of the above, it is advised that the Investors appropriately consult their investment / tax advisors in this regard.

The tax implications given hereunder are broad level implications. Such implications may differ taking into account the specific facts of each individual case. Further, the tax rates and provisions are as applicable as on the date of issue of this document and would need to be considered as on the date of the taxable event.

The Clients are accordingly advised to avail the services of a professional consultant in determining their exact tax implications.

TDS

Presently, Tax is not withheld at source for non-resident and resident. If any tax is required to be withheld on account of any future legislation, the portfolio manager shall be obliged to act in accordance with the regulatory requirements in this regards.

Tax implications

Income arising from purchase and sale of securities under portfolio management services can give rise to business income or capital gains in the hands of the Client. The issue of characterization of income is relevant as the tax computation and rates differ in either of the two situations. The said issue is essentially a question of fact and depends on whether the securities are held as business / trading assets or on capital account.

Securities Transaction Tax ("STT")

STT is applicable on certain specified transactions (on the stock exchange or redemption of equity oriented units), which are tabulated below, the rates are as applicable as per provisions of laws in force:

Sr.	Nature of Transaction	Transaction on stock exchange	'Value' on which STT is payable
1.	Delivery based transaction in equity shares / units of equity oriented fund	Yes	Price at which shares/ units are purchased/sold
2.	Sale of units of an equity oriented fund to the mutual fund	No	Price at which units are sold
3.	Non-delivery based transaction in equity shares/ units of 'equity oriented fund'	Yes	Price at which shares/units are sold
4.	Derivatives: Futures	Yes	Futures: Price at which futures are traded
5.	Derivatives: Options	Yes	Payable on option premium Payable on settlement price

The above STT is payable, irrespective of whether the securities are characterized as business assets or as capital assets.

Capital Gains Tax

- Sale of listed equity shares

The gains arising on sale of listed equity shares (which are subjected to STT) of the Portfolio Companies on the stock exchange would be taxable as capital gains as per the applicable provisions in force.

- Sale of unlisted Equity Shares

The gains arising on sale of unlisted equity shares of the Portfolio Companies would be taxable as capital gains as per the applicable provisions in force.

- Listed Preference Shares

Dividends

The dividend paid by an Indian company would be taxable as per applicable provision in force.

Each Client is advised to consult his/her/its tax advisor with respect to the tax consequences /implications to him/ her/it in respect of transaction in derivative products.

Sale / Buy-back / Redemption of listed preference shares

In such a scenario, the gains arising on sale /

buy-back / redemption of preference shares may be taxed as capital gains as per the applicable provisions in force.

14.0 Accounting policies

1. Following are the key accounting policies
 - 1.1 All investments will be carried/ recorded on cost basis.
 - 1.2 Transactions for purchase or sale of investments would be recognized as of the trade date and not as of the settlement date, so that the effect of all investments traded during a financial year are recorded and reflected in the individual client account for that year.
 - 1.3 The cost of investments acquired or purchased would include brokerage, stamp charges and any charge customarily included in the broker's contract note or levied by any Statute.
2. Books of accounts would be separately maintained in the name of the client as are necessary to account for the assets and any additions, income, receipts and disbursements in connection therewith, as

provided under SEBI (Portfolio Managers) Regulations, 1993.

3. Audit

3.1 The portfolio accounts of the Portfolio Manager shall be audited annually by an independent chartered accountant and a copy of the certificate issued by the chartered accountant shall be given to the client.

3.2 The client may appoint a chartered accountant to audit the books and accounts of the Portfolio Manager relating to his transactions and the Portfolio Manager shall co-operate with such chartered accountant in course of the audit.
